

SARAJEVO 2014  
PEACE EVENT

## Call for Applications: Summer School on “Humanizing Security”

As part of the Sarajevo Peace Event 2014, a 5-day **Summer School on “Humanizing Security”** will be held throughout June 4-9 in Sarajevo, as a collaborative endeavour of civil society organisations from **Bosnia Herzegovina, Bulgaria, France, Greece, Kosovo, Macedonia, Montenegro, Serbia, United Kingdom and Turkey.**

The Summer School is organized by a network of organisations called “Citizens’ Network for Peace, Reconciliation and Human Security”, supported by the European Commission and Open Society Foundation.

The event will serve as a meeting point for activists, practitioners and researchers, to discuss and elaborate upon human security – as a much debated discourse & concept – in its multiple dimensions, and, upon its strategic and practical/tactical utility in efforts to make the world a better place. The program covers issues as varied as youth precarity, small arms, private security, gated communities, state/national security, lack of trust in public authorities and new urban protest movements.

The Network will be accepting applications to support the participation of **20 young people of the age of 18 to 35 years old** from **Bosnia & Herzegovina, Bulgaria, Greece, Macedonia, Montenegro, Serbia and Turkey.**

**Those interested should write to [kerem@hyd.org.tr](mailto:kerem@hyd.org.tr) with a one paragraph motivation-statement and a CV no later than May 26, Monday.**

*Citizens’ Network for Peace, Reconciliation and Human Security* is a crossborder/regional project taking place within context of IPA Civil Society Facility, under the implementation of the European Commission’s Directorate-General Enlargement. It is a joint initiative with partner organizations from **Bosnia Herzegovina, Bulgaria, Kosovo, Montenegro, Serbia and Turkey**, which utilizes the *human security* approach as its main discourse and methodological framework to raise public awareness and create social mobilization among citizens and policy makers on the centrality of human beings as the prime dimension of security.
